

CHRISTOPHER DANG

Professional Engineer

christopherdang1992@yahoo.com · 626-560-6810 · Albuquerque · [DrDang.github.io](https://github.com/DrDang)

PROFESSIONAL SUMMARY

Professional Engineer (PE) with 10+ years of experience spanning avionics platforms, unified battlefield software platforms, and modern Space/RF systems. Proven track record of reliability, notably sustaining the F-15 ADCP2 production line during a complex nationwide site migration. Dedicated to technical mastery and continuous professional development, holding INCOSE ASEP certification. Seeking to leverage this drive and systems engineering expertise on impactful projects.

WORK EXPERIENCE

AV *Albuquerque, United States | 2025-05 – Present*

Advanced RF Systems Engineer

Currently working WASP space RF solutions.

- Spearheaded requirements decomposition, Interface Control Document (ICD) drafting, and Verification Cross Reference Matrix (VCRM) development, leading to a successful Delta Critical Design Review (Delta CDR).
- Serving as Cross-Product Team Lead to manage technical risks and execute demo plans across two concurrent projects.
- Authoring and executing comprehensive test procedures to validate system performance against requirements.

Honeywell International Inc *Phoenix, United States | 2023-06 – 2025-05*

Lead Systems Engineer

- Modeled requirements for new product introduction of the Honeywell 360 Display for Military ground vehicles
- Resolved multiple complex F-15 ADCP2 issues at the customer to their satisfaction
- Scaled testing capabilities via hardware & software upgrades by 280%
- Addressed First Article Inspection (FAI) concerns for new vendor production lines, resulting in smooth integration
- Supported & passed Functional/Physical Configuration Audits (FCA/PCA), Acceptance Test Procedures (ATP), and Configuration Management audits
- Completed Level of Repair Analysis (LORA) & Depot Activation Requirements documentation
- Certified L3 export classifier with over 230 classifications done
- AET proposals, both ROM and TINA-level
- Authored over 95% of project documentation on the organizational wiki
- Troubleshoot and supported T-45 test solutions

Honeywell International Inc

Phoenix, United States / 2021-02 – 2023-06

Senior Advanced Test Engineer

- Led team of engineers & technicians for F-15 ADCP2
- Responsible for all F-15 ADCPII test software development and sustainment: 11 automated LRU testers, 2 automated SRU testers, 5 manual SRU testers, 2 software benches, 5 thermal testers, and 2 vibration testers.
- Successful rollout of a new test data SQL database, bettering test analytics by orders of magnitude.
- Pioneered AGILE team workflow via JIRA.
- Improved test software for efficiency and test times with the audit software 60% faster
- Solved problems on programs: C-17, B-1, F-16, F-18, C5, C-130, & more.

Honeywell International Inc.

Phoenix, United States / 2019-01 – 2021-02

Advanced Test Engineer

- Successfully led the redesign & build of a new ATE, including software integration
- Led development of updated test chassis for automated card tester
- Represented Honeywell for F-15 ADCPII, resulting in successful CMMI Level 3 appraisal
- Solved overheating in ESS testing, mitigating future escapes and saving test time and material costs
- Essential test support for a successful software Qual

Honeywell International Inc.

Albuquerque, United States / 2018-01 – 2019-01

Engineer 2 Test

- Developed 1553 VME Board driver for obsolescence on C-5 SILs on VxWorks
- Developed BIT decoding & enhanced troubleshooting capability on ATP
- Improved ESS Thermal test for all ADCP II programs, adding multi-UUT testing capability
- Refined & released detailed acceptance test procedure documents for all ADCPII programs
- Led the ARINC-818 & fibre channel ATP test updates
- Developed new Large Area Displays QUAL testing

Honeywell International Inc.

Albuquerque, United States / 2015-06 – 2018-01

Engineer 1 Test

- Completed LRU manual test software development via CVI
- Developed software for LRU automated firmware & software loading & auditing using JTAG, RS-232, & SPI
- TestStand Development and documentation for ATP
- Fixed issues on ESS thermal & vibration test software
- Designed and implemented ARINC-818 testing

Hewlett Packard

Houston, United States / 2014-06 – 2014-08

Hardware Design Intern

- Designed, tested, and deployed a new test system for HP SmartDrive product line at multiple sites, resulting in decreased escapes.
- Conducted thorough troubleshooting of server system prototypes

NMTSAT Subsystem Lead

- Lead the analysis, testing, and update of the Langmuir Plasma Probe subsystem, including schematic and PCB design using EDA

EDUCATION

New Mexico Institute of Mining and Technology

2011-08 – 2015-05

Bachelor's in Electrical Engineering — High Honors

SKILLS

Team Leadership: Cross-Functional Team Leadership, Technical Risk Management, Stakeholder Management, Resource Planning, Mentoring

Programming & Testing: TestStand, C, CVI, LabVIEW, Matlab, Python, SQL (PostGRE & MS SQL Server), Assembly Development, Multisim, Ultiboard

Documentation & Tools: Documentation, Word, Excel, Powerpoint, GanttProject

Configuration Management: ClearCase, ClearQuest, Teamcenter, Bit Bucket, SVN, GIT, Arena

Project Management: Confluence, JIRA, OpenProject

Compliance: Export Classification (L3 level)

MBSE: CAMEO, Enterprise Architect, Eclipse Papyrus, Jama Connect, SysML

CERTIFICATIONS

Professional Engineer (Electrical and Computer) 2025-08
NM State Board of Licensure for PE & PS

Professional Engineer (Electrical and Computer) 2025-01
Arizona Board of Technical Registration

INCOSE Associate Systems Engineering Professional (ASEP) 2026-01
International Council on Systems Engineering (INCOSE)

Cisco Certified Network Associate 2024-04
Cisco

FAA Part 107 Certified Drone Pilot 2024-02
Federal Aviation Administration

Six Sigma Green Belt 2016-03
Honeywell

L3 Export Classifier 2023-01
Honeywell

N2 Japanese-Language Proficiency 2017-01
The Japan Foundation

AWARDS

Chief Engineer's Recognition Award — Honeywell 2022-12
Top Flyer Award — Honeywell 2020-06
Outstanding Engineer Award — Honeywell 2020-02
